METHODOLOGY

1. Sampling:

Stratified sampling, probability sampling, three-stage sampling;

2. Sampling size:

1507 respondents, 18 years old and more;

3. Criteria for stratified sampling:

12 administrative-territorial units (ATU). residential environment (urban-rural). Size of urban localities (4 types). type of rural localities (commune center/adjoining village);

4. Stages of randomization:

Locality (112 selected localities) Household/Family; Person;

5. Representativeness:

The sample is representative for the adult population of the Republic of Moldova excluding Transnistria;

The maximum sampling error is of ±2.5%;

6. Interviews:

The interviews have been conducted in the homes of respondents by 62 operators within the network IMAS-INC in the Romanian and Russian languages;

7. The time-period for data collection:

March 6-27, 2011;

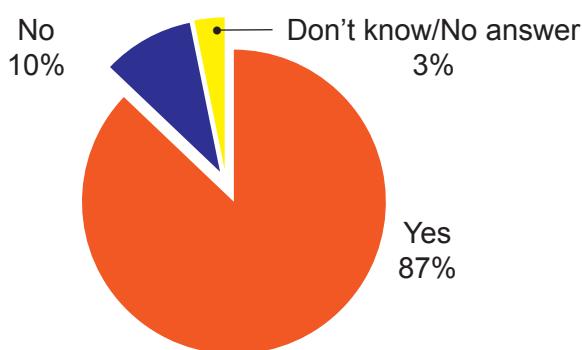

8. Sample makeup

...from a demographic standpoint

Variable	Group	Yes	No	Don't know/ No answer
<i>Gender</i>	Male	88,7	8,2	3,1
	Female	85,6	11,1	3,4
